GENERATION

THE 10 YEAR YOUTH JOURNEY

What do **youth** think?

National report

**Future
plans**

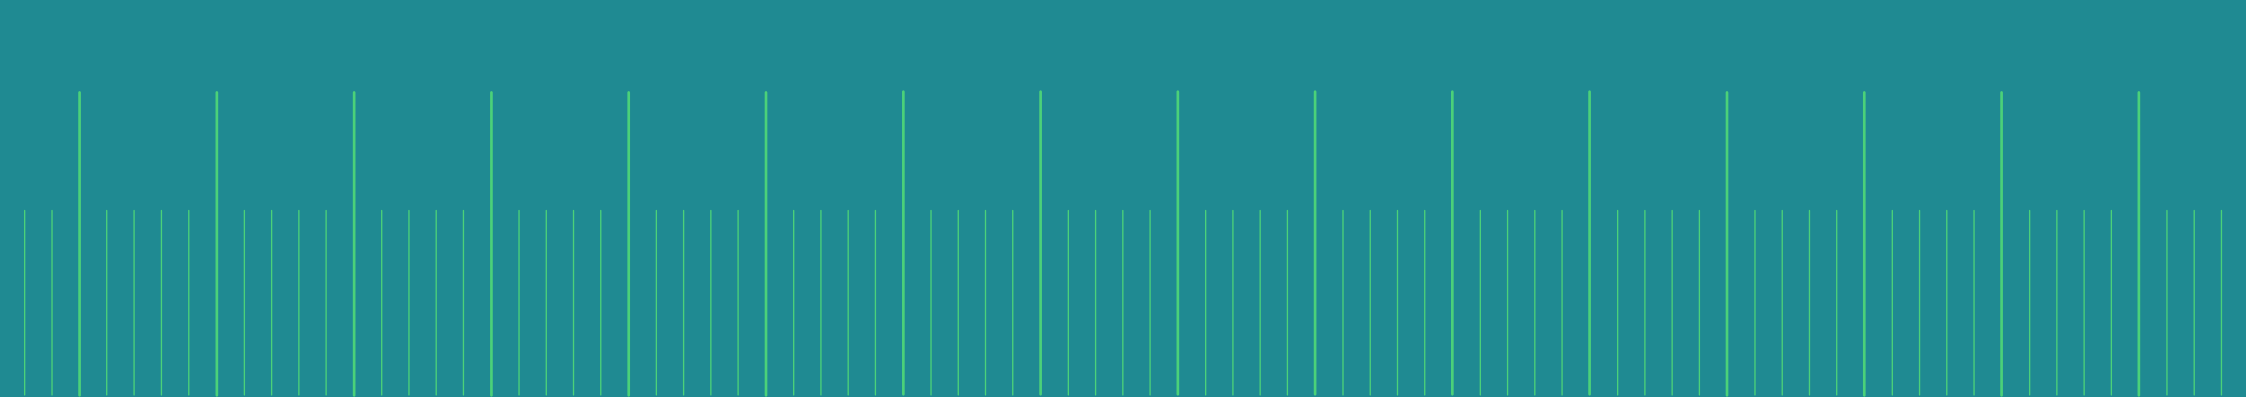

**Study plans
affected
by finances**

**Mobile
phone use**

**Homework
and
tutoring**

**Employment
and
extra-
curricular
activities**

GENERATION began as a survey of Year 10 students in 2022 and will follow the journey of some participants for the next ten years. **GENERATION** seeks to find out what young people are doing and what their future plans might be.

This summary report provides selected results from **GENERATION** in 2024. Not all Year 10 students may have participated in 2022 and not all of those who participated in 2022 may have continued with the survey in 2024 and the results should be considered indicative rather than representative.

3,785 young people took part in GENERATION in 2024.

Young people from 340 schools took part in **GENERATION** in 2024. Please note, not all participants were still at school at time of survey. At a national level, approximately 95% of young people surveyed were still at school at time of contact. Only 5% of young people were not at school, or said “prefer not to say” when asked.

This report allows you to make comparisons back to National data.

We hope that the information provided is beneficial and we thank you for your support for the project.

If you are interested in further details, please contact us at generation@anu.edu.au.

Future plans

Have your post-school plans changed since last year?

50%

of young people said
their post-school
plans had changed
since last year

46%

of young people said
their post-school plans
had not changed
since last year

Future plans

Why did plans change?

Note: These results are based on responses from 1895 young people who said their post-school plans had changed.

Future plans

what young people did in 2024 to help them make decisions about their futures

They spoke to people about their career plans

Future plans

what young people did in 2024 to help them make decisions about their futures

They attended or visited

Future plans

what young people did in 2024 to help them make decisions about their futures

Other activities

Study plans

Does the cost of study or training after school affect students' plans?

Because of cost, are you planning to

Note: Results are a percentage of those who selected agree / strongly agree.

Mobile phone use

During a typical hour in class

How often do you check your phone for something other than the time?

Note: These results are based on responses from 3637 young people who said they are still in school.

Mobile phone use

During a typical hour when studying at home

How often do you check your phone for something other than the time?

Note: These results are based on responses from 3637 young people who said they are still in school.

National report

Homework and tutoring

Homework in the last week

Note: Item was asked of young people still at school. Last week refers to week prior to survey completion.

Homework and tutoring

Access to tutoring outside of school hours in the last 12 months

8%

have a tutor more
than once per week

17%

have a tutor
once per week

5%

have a tutor less
than once per week

64%

did not have a tutor

Employment and extra-curricular activities
